Treasurer David Mattson and the contract, which has been let to John G.
Ellis, calls for its completion by March I of next year. The building will be one of the handsomest in the city and will compare favorably with the leading hotel buildings of the west in point of architecture, equipment and modern appliances and fixtures. The new hotel has a frontage of nincty-seven feet on Twenty-fifth street and 132 feet on Lincoln avenue. The two upper floors contain nincty rooms according to the plans. The ground floor will be used for business purposes and the basement will be used for a modern cafe and rathskeller, Architect J. C. Craig of Salt Lake prepared the plans for the building and will have an expert man from his office at Ogden during the construction to see that the plans are followed. Ground was broken for the building several months ago and no delay will result as the excavations have been made. Today contractors Bateman and Doyle were engaged with a force of men clearing away the debris from the excavations preparatory to the laying of the cement and foundations. The building when completed will cost approximately \$85.00.

Mr. Mattson has a one hundred year lease on the corner upon which the building will be located.

September 1. The officials and citizens of Ogden were given a rousing welcome in Willard last week when the first train composed of the two new coaches drawn by a steam locomotive, made its first appearance in the little town on the south. The citizens there have planned a big celebration for August 31, when regular service between there and Ogden has been promised by the road.

While no definite preparations have been made for a celebration in this city upon the advent of the street railway here, it is most likely that a big celebration will be held on the day the first through car from Ogden is due to arrive here. It will likely be two months before the road is completed, so there is plenty of time to make preparations.

Grading for the road has been completed to within two miles north of the city, and track laying is finished to a point about two miles north of Williard.

EMERY COUNTY'S MUG FOR "UTAH" SERVICE

Special to The Tribune.

Special to The Tribune,
CASTLEDALE, Aug 8.—The regular session of the county board of Emery county commenced here during the week. The first matter taken up by them was a communication from the governor asking that the county designate a design to be piaced on the Emery county mug of the battleship Utah, silver service, one mug to represent each county. After due consideration on the matter it was decided to authorize Jesse Jewkes, state auditor, and H. T. Haines, state statistican, to make the selection. It was the opinion of the members that these gentlemen could make a more appropriate design as they could be informed of the size of the mug and of the selections of other counties, both fitting and different from other counties. other counties.

THE SALMON REGION IN CENTRAL IDAHO

Fatal Accident and Fatal Shooting; Many Mines Being Worked With Profit.

Special to The Tribune.

SALMON CITY, Idaho, Aug. Crushed to death by a fall of rock, the body of John Doyle was found yesterday by a party of prospectors on Big Deer Creek, twenty-five miles northwest of Salmon City, Idaho.

Doyle was about 50 years of age. He was well known in this district, where he had been prospecting for many years. He was working alone when the acoldent happened, and the fallen rock showed that he had just struck a rich lead of gold-copper ore. It is not known how long he had been lying dead among his new found riches, as it was quite

how long he had been lying dead among his new found riches, as it was quite by chance that his body was discovered. Daniel McInerney shot and killed Peeler Foster at Glinore, south of Salmon City, at \$5 o'clock last night. Foster was shot in the abdomen, the buillet passing out through his spine.

McInerney is in the custody of Sheriff Waters of Lemhi county, Idaho. The men quarreled over a mining claim.

There is great activity among the mines in the Salmon City district. With the recent completion of the Glimore and Pittsburg railroad to this town from Armstead, on the Oregon Short Line, old properties are being worked with profit, being hitherto retarded for lack of transportation facilities. Electrical plants are being installed to furnish power to several of the claims.

The Salmon City district is rich in a variety of minerals. North of the town lie the gold and silver mining districts; west there is gold, copper, nickel and cobalt; northwest and down the Salmon river there is gold, and to the southwest there is a region rich in silver and lead. Several coal prospects are being opened up in this vicinity. Within two miles of Salmon City is a mine which has furnished 60 per cent of the total coal occurs in flat dipping sandstone, clay and shale deposits. The seam is approximately five feet in thickness.

Brick clay, of a quality suitable also for tile and sewerage purposes, and quantities of fine building stone, are found in the neighborhood. A company has recently been formed, capitalized at \$2,000,000, to work the aluminum beds two miles from town. A plant will be installed to extract the aluminum from the clay, afterward using the tailings for brick.

stamp mill, and a \$50,000 electric power plant will shortly be installed there. The Ulysees mine, owned and operated by R. L. Edwards, is a good paying proposition, low grade, free milling ore. Mr. Edwards also owns the Musgrove gold placers. A cyanide plant will be erected here.

The Blackbird district is said by experts to be the richest in copper in the west, destined to become a second Butte. As soon as the Gilmore and Pittsburg railroad is built down the river an electric line will be constructed twenty-eight miles up Big creek to ship the high-grade copper, nickel and cobalt ores. These properties are owned by the Duboise syndicate of Pennsylvania, who also own copper properties in Arizona.

The Richardson placers and the placers on Napias creek, working in the old Leeshurg placer belt, are taking out plenty of dust. Both are good dredge propositions, but have, hitherto, been unable to secure sufficient capital for development. The Moose Creek dredge recently changed hands for \$50,000. This company has been on a paying basis for the last two years. An electric dredge will be installed on this property.

In the Junction and Gilmore districts are several lead silver properties, which are now on a paying basis, since the G. & P. railroad touches that part of the country.

Much interest is being shown by out-

BICYCLE RIDERS RAISE

The bicycle riders who are appearing at the Sail Palace saucer track have collected a neat sum for Jack Hume. At a meeting held Tuesday night it was decided to donate ten per cent of the prize money won by the riders to Hume. In addition MacFarland, Clarke, Lawson, Pye, Downing and Walker contribute \$50 more. A purse of more than \$100 was thus raised quickly for the injured rider. This is given in addition to the \$20 which was raised last Sunday among the riders.

Hume was reported to be much better Tuesday night and the physicians say that the chances for his uitimate recovery are very bright.

Will Play Benefit.

The Retail Clerks' baseball team will meet the Wagners in a benefit ball game at Walker's field at 9.39 Sunday morning. The gate receipts will go to J. J. Elder, a popular member of the Retail Clerks' union, who has ben ill for a long

of 1908 and one of the best horses which has borne the silks of James R. Keene in many a year, is on the shelf for this season, at least.

Ballot came out of the Saratoga handicap, in which he was beaten by Olambala last Thursday, with an abrasion on his near foreleg. He did not appear to be very sore when he went to his stable, but the injured leg was badly swollen friday and his trainer has not been able to get him on the track since. It is accordingly announced that there is no possibility of an attempt to race him again this year. This means that Ballot must pass the Saratoga cup and the Saratoga weight for age race, in which he was to have met Olambala and Fitzherbert, at a mile and a quarter at Saratoga Springs.

Whether Ballot will come to the post again next season his trainers cannot say. They do not know yet exactly what alls the stout chestnut. He may have a bowed tendon or his injury may be due to a kick. Since Ballot is now six years old, it is possible that Mr. Keene may decide to retire him immediately to Castlaton titud.
